Landscaping Supplements Remodeling In Modernization

LANDSCAPE TO ENHANCE HOME

Beautification Program Not Complete Until Shrubbery and Vines Are Growing

Often the beauty of a home is enhanced to a marked extent by proper landscaping. The house attractive enough with its modern lines takes on a new appeal when vines flowers and shrubbery are planted and trained

Modernization includes landscaping and emphasis should be placed on this statement. The home is up to date only when lawns have been planted and shrubbery set out. Otherwise the residence is raw and unfinished.

The mere fact that a house is surrounded by an attractive lawn often leads the average person to believe that the home owner has taken complete steps to make his property modern. The lawn is really the first step in the plan.

Landscaping Improves Property

The illustrations on this page show interesting before and after views. The lawn in the lower picture is most attractive. The grass is well cared for being trimmed and neat.

Yet what a difference resulted when shrubbery was set out and allowed to grow. Three years had elapsed when the top illustration was taken. During that interval shrubbery had been set along the edge of the lawn bordering the public sidewalk. Another strip of shrubbery was planted near the foundations of the building and a tree set out in the front lawn in a spot calculated to give shade and privacy from the house.

Exterior Remains Unchanged

The exterior of the house remains unchanged, with the exception of additions, the new awnings which protect the windows on the south and west elevations. Yet the difference in appearance is remarkable. One view is bare and incomplete, the other inviting. No matter how effective the lines of the house or how attractive the interior a hospitable homey effect is secured by the use of shrubbery and flowers.

Architects Realize Importance

Many architects when planning the design of a home insist on landscaping the grounds at the same time. They know that the effectiveness of the exterior depends largely on the surroundings and that full justice to the original idea can only be secured when the lawns are properly handled.

The home garden is usually divided into lawn flowers and vegetable gardens and service yard.

The flower garden should be laid out so that it will be enjoyed from the windows of the house. The vegetable garden should be located at the back of the lot as it is strictly a utilitarian project. Often the two are divided by hedges or a little fence over which vines can grow.

Lawns Essential to Home

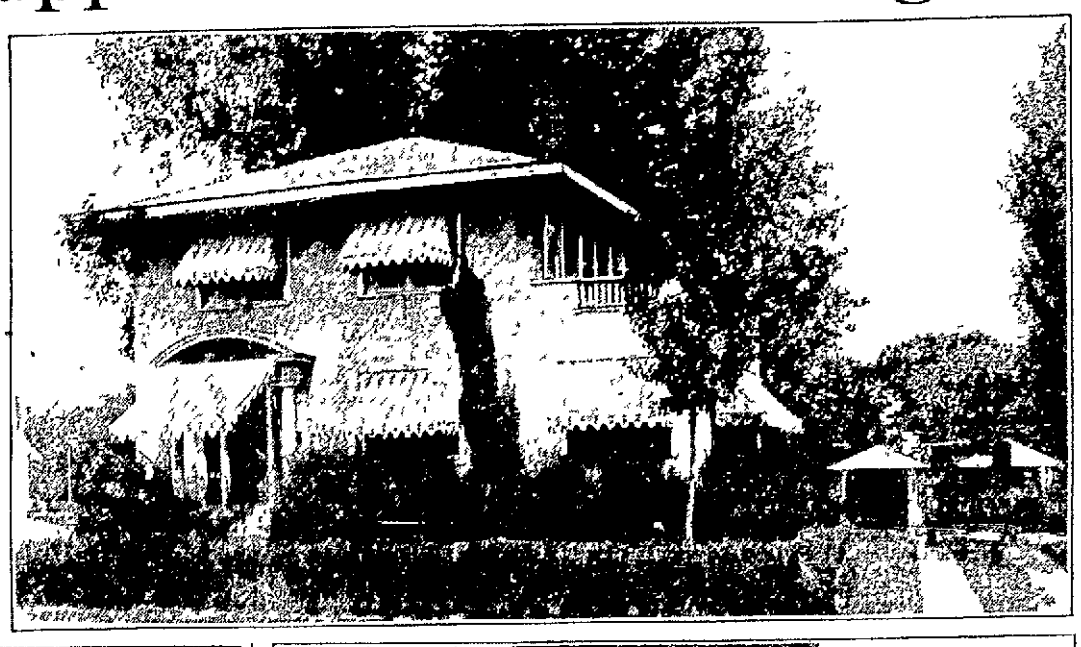
Well cared for lawns are essential if the house be properly set off. The lawns should be as spacious as possible and should not be cut up by shrubbery or flower beds as these limit the sweep of the lawn.

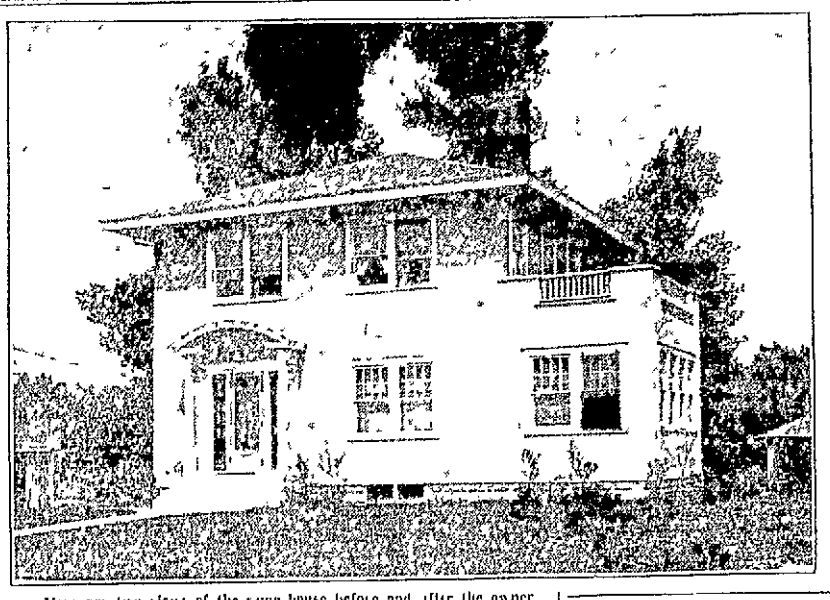
Flowers and shrubbery are usually placed along the edge of the lawn or massed near the house. Often a low privet hedge grows next to the sidewalk, at the corners masses of flowers being placed to break the positive direction of line.

Get Advice on Landscaping.

The yards should be landscaped according to a definite plan. This should be worked out before the lawns and shrubbery are set out but often when modernizing it is necessary to take the lawn as it stands and make the needed improvements.

The home owner who is not experienced with flowers or shrubbery needs the advice of competent landscape artists. The landscaping of a plot of ground is an important factor in the final appearance of the home and it is always wise to seek the services of men who know and who can visualize the final result.





Here are two views of the same house before and after the owner landscaped the lot. While the house had modern lines the modernizing of its surroundings more than doubled its attractiveness.

UNITY CLUB ENTERTAINED

GALION, July 21—Members of the Unity club were entertained by the Galion Country club at the club house west of the city Friday night. Guests of the club were Mr and Mrs Hugh Diamond, Miss Naomi Tracht and Theodore Schaefer. Following the dinner a program was presented consisting of a talk by Earl Laughbaum, vocal solos by Miss Tracht, piano numbers by Theodore Schaefer and humorous numbers by Mr Diamond. O W Tracht presided during the program and Mrs Bertrat Cases president of the Unity club responded in behalf of the club.

"Whenever the world is set on fire" by a noble idea. It makes a great many people unhappy.

Wood in Foundation Should Be Protected Against Ants

The foundation of a building, when made of wood should always rest on brick or concrete and never on the ground. There are over 10 species of termites in the United States and these when once onto often destroy the wooden framework and floors of buildings if they are allowed to enter.

Termites like the white ants of Africa live on cellulose found in wood living or dead vegetation paper cloth etc. They burrow in the ground. When food is found as in buildings they tunnel up through it often reaching as high as the sixth floor.

Since they are tunneling insects their presence is often hidden until they have greatly damaged the building. The only permanent cure is to entirely replace the damaged woodwork and establish preventative means by insulating the woodwork from contact with the ground.

It can be accomplished by the use of stone or concrete foundations and with the lower flooring and foundations impregnated with coal tar creosote.

Termites need moisture to survive. Insulating the woodwork causes them to die out. Complete insulation of all untreated woodwork from the ground is the only effective method of preventing the ravages of termites in buildings in the United States.

Mt. Victory Society Meets at Smith Home

MT VICTORY, July 21—Mrs Thomas Smith assisted by daughters Pauline and Leon was hostess to the U B M society at M E parsonage Friday afternoon. Devotional service were in charge of Mrs Ella Ewing.

Scripture selections were given by Mrs Joseph Ansley Mrs Charles Grooms Mrs Metellus Smith Mrs Thomas Smith Mrs William McBain Mrs M W Cronley. The meeting closed with prayer by Mrs Harriette Needles.

WORKMAN INJURED

ASHLEY, July 21—Chester McClish is suffering from minor bruises received while working on a transformer for the Northern Ohio Telephone Co Saturday morning. The accident occurred near the farm of John Pugh when Mr McClish lost his balance and fell from a 10 foot platform.

Enjoyable things do tend to wickedness because they are pursued too fiercely.

Services Held for Infant Galion Girl

GALION July 21—Funeral services were held this afternoon for Beverly Ann Resch infant daughter of Mr and Mrs Robert Resch. The child passed away Saturday at 6 30 a m at the home of the parents Harding Way W.

Services were conducted by Rev I H Patterson pastor of the First U B church. Interment was made in Fairview cemetery. The mother was formerly Miss Geraldine Wise of this city.

DAVIS FINED $25

KENTON July 21—Marvin Davis of near Dola pleaded guilty to operating two automobiles on fictitious license plates and was fined $25 and costs.

PANELED WALL VERY POPULAR

Newer Types Within Reach of Every Home Owner's Pocketbook.

Just at the present time there seems to be a revival in the use of panelled walls when finishing the interior of the house.

Paneled walls have long been held to be suitable only for the residence of the man of wealth. The price of panels was the determining factor in days gone by. Since the cost of panelling was high their use was evidence of wealth.

Today improved methods have lowered costs. The newer kinds of panels and different ways of achieving the paneled effect have placed such walls within the reach of all.

Wall and Plaster Board Practical

Whereas the walls of the residence of gone by days were finished in painted and stained woods today wall board and plaster board may be used. The French paneling with its one or more tones may be applied over plaster or canvas wall paper also may be applied in panels with dark colors between and moulding. A similar effect may be produced with paint with stenciled or stippled panels.

The French panel is simply a painted background with mouldings applied in pleasing rectangles.

French Panel Appropriate

One of the features of French paneling is its appropriateness to practically any interior no matter what the style or size of the house. If a smooth plaster wall is not available decorators canvas may be applied first as a background for the moulding.

The range of color effects is unlimited. The panels may harmonize with the borders or they may contrast with them. Either or both may be plain or patterned. Wall paper may be used instead of paint.

The size and spacing of the panels largely determines the effect that results. Each room differs from another. Each wall usually differs again from another wall. The eye of an artist is required to lay out the panels so that their proportions are satisfactory to the eye.

Autos Win Preference Over Front Porches

Back in the horse and buggy days the front porch was a favorite spot during the summer months but with the coming of the automobile the family prefer to take a long ride in their car when endeavoring to keep cool and comfortable.

The front porch therefore is rapidly falling into disuse. Many families when remodeling the house now specify a small stoop which protects the doorway during inclement weather. The porch has been discarded by these home owners as being an unnecessary expense.

Attractive Rope Trellis Should Beautify House

Along the side of your house you can build a simple trellis so that when growing roses and other vines you can train them to grow up to make a graceful decorative effect.

Rose ladders are easily constructed or may be purchased from manufacturers. They should harmonize with your home and may be painted in keeping with the rest of the house.

WORTH ALL IT COSTS

Even if home ownership was not cheaper than rent, it would be worth while because —

—a real home provides better conditions for the whole family, and it raises your standing in the community.

Let us explain our plan.

The Stars Say—

For Tuesday, July 22

BY GENEVIEVE REMBLY

The astrological operations for this day point to a fair degree of activity and interest with the prospect of some change with affairs ruled by industry and sound judgement The mind should be well equipped for all emergencies having highly constructive as well as solidly practical insight into affairs The purely personal affiliations and and occurrences may give concern, and may develop some disturbance as well as spectacular elements

Those whose birthday it is may expect a very lively and interesting year, with the faculties alert and the energies under fine ruling sun for success and hard work There may be changes and new plans and agreements but the personal affairs may develop an angle of mischief with some unusual or sensational experiences A child born on this day should be splendidly endowed mentally and by stability of character for fine success in many avenues but may encounter small anxieties in employment its personal affairs may have some irrecular or sensational angles

GETS HIGH YIELD

KENTON July 21—The highest yield reported in Hardin county this season was threshed on the Russell Wolford farm when 10 acres of wheat averaged 40 bushels to the acre by machine measure Wheat overrun each measured bushel by five pounds which brought the official yield per acre to 40 8 bushels

School Operation Costs Here Rank Low in Class

Mansfield and Middletown Spend More Each Year Than Marion, Report Shows, East Liverpool Receipts Lower.

BY MURRAY POWERS
Staff Correspondent for The Star

COLUMBUS O, July 21—Fifty six cents out of every dollar spent for Ohio elementary schools for instruction Fifteen cents goes for buildings and grounds nine cents for interest, nine cents for operation, four cents for maintenance three cents for administration two cents for auxiliary expenditures, one cent for miscellaneous and one cent for coordinate expenditures

The total spent for public school purposes as divided above was $84 329 218 91 in 1928 according to a consolidated report of comparative statistics compiled in the office of the state auditor

Of the nearly eighty five million dollars expended the total for instruction reached $47 747 587 86

City Ranks Twentieth

Marion through its 1928 school enumeration of 6758 pupils ranked twentieth among Ohio cities in school population Middletown was one notch ahead of Marion with 6 800 pupils, while Mansfield was two notches ahead with 6 850 East Liverpool ranked just under Marion with 6 219 pupils

As a result of the close grouping of Marion, Middletown and Mansfield comparative statistics are interesting,

In 1928 Marion's school revenue amounted to $160 000 00—$68 10 per capita—while its expenditures were $193 211 9 —a per capita cost of $72 99

Middletown's receipts that same year were $511 250 49 and its expenditures $621 961 20 Mansfield's receipts were $606 151 01 its expenditures $636 016 17 East Liverpool's receipts $403 515 80 and its expenditures $340 671

Of Marion's total expenditures $371 312 13 went for operation and maintenance $13 471 05 for new construction and equipment, and $100 1-8 75 for debt service.

Construction Costs Low

Marion's new construction and equipment costs were low in that city's group, but not as low as Mansfield which spent only 20 cents per capita Marion spent $1 99 Middletown $5 17 and East Liverpool $5 90

Among other expenses of Marion were

Administration—$14 259 20 with a per capita cost of $2 11 as compared with $1 77 in Middletown $1 80 in Mansfield and $1 60 in East Liverpool

Personal service text books replacement of educational equipment, etc all listed under instruction $280 170 16 Coordinate activities, including personal service supplies, transportation and publication $1 655 library service $10 000 60 or per capita cost of 00 cents The library per capita cost in Marion was much higher than the other cities Middletown spending 18 cents Mansfield 15 cents and East Liverpool 24 cents

Transportation of pupils had a per capita cost of 20 cents in Marion as against 97 cents in Mansfield two cents in Middletown and nothing in East Liverpool

Marion spent nothing for public lunches community centers playgrounds and its school gardens, and neither did Mansfield, but Middletown spent 18 cents and East Liverpool five cents

$7 72 Operation Cost

Marion's per capita cost on its school plant operation was lower than either Mansfield or Middletown but higher than East Liverpool Marion's cost was $7 72 as compared with $12 17 in Mansfield, $8 1— in Middletown and $6 78 in East Liverpool

Marion's school plant maintenance cost was low just slightly higher than East Liverpool's $1 55 it being $1 46 against Mansfield's $3 4— and Middletown's $1 57

The 1928 figures also show that Marion's per capita bonded debt was $107 13 Middletown's $160 04 Mansfield's $191 83 and East Liverpool's $9 67

Total school tax levy in Marion was 10 09 mills Middletown 9 mills Mansfield 9 70, and East Liverpool 11 14 mills

Daily Proverb— Every milder method is to be tried before a nation makes an appeal to arms

The members of the German parliament should have realized that President Paul von Hindenburgh was to odd for their kind of people

Former President Coolidge is of the opinion that to associate with saints alone is to be lonely It's our guess that in this old sinstrinted world of ours it would be impossible

Another Chicago policeman shot by a paroled convict who was sent up for from one to ten years and turned loose after serving the one What can the Illinois parole board possibly have against the Windy City policemen?

An Associated Press story from Moscow says that soviet Russia plans to have 17 000 000 of its citizens in some form of military and aviation activity by October of 1933 That doesn't make a noise a bit like the cooing of the gentle dove of peace

Congressman Fiorello H La Guardia of New York, told a London gathering that the security of human life can not be left to the old school of diplomats and ambitious admirals It's just possible, too, that it might prove a bit risky to leave the security of human life either to pink pacifists or ambitious law makers

Germany is to remain under a dictatorship for the next two months If search were on for the world's poor guessers we would suggest that it might direct its attention to those who held at the time of his election as president that von Hindenburg would prove a mere figurehead in the presidential chair

Gloomy Dean Inge says that what Americans spent on luxuries during the past two years would pay on the British war debt figuring that the annual bill of the United States is $10 500,000 000 for amusement alone The sad phase of the thing, however, is not that the money was spent but that the return in amusement was pitifully small

The city of Appleton up in Wisconsin, has barred all stunt flying and flying at an altitude of less than 3 000 feet save when a landing is being made It's a pretty good ordinance, and all the population centers in the land will in time come to it or something along similar lines

A dispatch from Williams Lake British Columbia, tells about the wrecking of a sailboat by an ogopogo which upturned the boat, but made no attempt to devour the crew We haven't the slightest idea regarding what a ogopogo may be but if its name is descriptive of it it must look exactly alike from either end

The Carnegie Steel company has started construction on a new $2,000 000 plant in Trumbull county Did the company not see indications of an increased steel demand it is hardly probable that it would be erecting new plants Such items are cheering after a period of industrial stagnation and unemployment

The Harder Candidacy

William N Harder of this city is a candidate for nomination at the coming Republican primary for state senator from the joint Thirteenth Thirty First district made up of the counties of Seneca Crawford Wyandot Marion, Hardin Logan and Union

These two districts have jointly been represented during the present and past legislative terms by Senator Robert L Rohr of Tiffin who is a candidate to succeed himself for a third term but such is the law that the joint district will have two senatorial representatives for the ensuing term there being legal provision that two senators be chosen for it for the term following a decennial enumeration that there may be representation for the increase in population which may have occurred during the preceding ten year period

Naturally this paper is especially interested in the campaign of Mr Harder not only because he is a citizen of Marion but also because of his standing as an attorney, as a man and a citizen—in a word because of his eminent fitness for the place

More than at any previous time in the state's history, there is need for able men in the general assembly for the coming term In addition to many other matters of import to come before it, there will be the formulation of a new taxing system which should receive the thought and be given the study of the very best men the electorate can obtain It is with this in mind that this news paper pays tribute to William N Harder believing that he will measure up to every requirement

Industry and Employment.

President Gerard Swope of the General Electric company last week outlined to something like half a hundred large employers of labor assembled in New York City in response to a call issued by Governor Franklin D Roosevelt's committee for the stabilization of industry and the prevention of unemployment the plan by which his corporation is stabilizing employment among its 30 000 workers

The chief features of the General Electric plan are four The first calls for joint and equal contributions by employes and the company The second provides for joint participation in the administration of the plan The third makes provision for all through group action in the cases of workers who are in need or require temporary aid or for whom only part time work is available The fourth provides for compensation and assistance from those employes of the company not usually affected by unemployment and needs assistance by the company in equal amount

Mr Swope admitted that the plan had not been popular at first but said that it is steadily growing in popularity and that it has been accepted by seventy five per cent of the company's employes The plan he explained in response to questions may be adopted by each plant as a unit by a majority vote of its qualified employes and he said that it had either been adopted or was being considered by the employes of all the General Electric works He remarked that a surprising phase of the thing to the company was that the plan is quite generally favored by departments which are not usually subject to lay offs in periods of unemployment and whose members would not normally be beneficiaries of the fund but would contribute during unemployment emergencies

This plan is not final in form or in substance and may be modified by joint action of the employes and the company Mr Swope told his fellow industrialists It is an interesting experiment in which the company is glad to join its employes first in endeavoring to find a solution and second in ameliorating the tragic effects of unemployment on particular employes who are in no sense responsible for their unemployment

Naturally the plan presented by the General Electric executive was not the only one offered and discussed but it seemed to be the one most favorably received and considered the best adapted for accomplishing the end sought It was not taken as a mere theory but accepted as workable

Contrary to the far too general assumption the great industrial corporations of the land are interested in their workers and long have been and this interest obtains whether the time is one of industrial and business activity or one of stagnation Selfish interests alone would prompt great industrial leaders to consider the welfare of their employes This is so obvious that it needs no explanation But we believe the interest goes above and beyond that If recent years have demonstrated one thing, more than another in connection with the relations between employer and employe it is that they are closer together and can get nearer each other in thought and reasoning today than ever before in the world's history It is safe to say that for years the great employers of labor have been working to further the interests of those they employ and many of them have succeeded most admirably Some have failed in their attempts but such failures if is to day safe to say have been the result of lack of good methods rather than of good intent More and more the belief is growing that the real solution of the unemployment situation is the stabilization of industry that there may no be periods of plenty and periods of hardship, but an even flow of work the year around which will make the monetary return for employment consistent the year around and carry it all the way up and down the line in the business world This is becoming a very generally accepted view among great industrialists and the effort being made in New York state to stabilize industry is not limited to that political division but it reflected throughout the country

The Michelin Tires company of Milltown New Jersey, is planning to pay $700 000 in bonuses to 700 of its former employes laid off when its plant was closed down about three months ago as a result of overproduction That's one way of meeting the unemployment proposition

Senator Royal S Copeland of New York told a gathering there that as sure as fate the chimneys will be smoking, and the crops will be good and bring good prices in 1932 and Herbert Hoover will be reelected and he assured his hearers that he was serious in making his statement If Royal were a resident of the South they would throw him out of his party for that and build a political fence to keep him out

Word comes from New York that a tentative five year agreement governing wages and working conditions which is mutually satisfactory to both sides has been reached by the United Mine Workers of America and the anthracite operators It's time for them to get together A few years more under the conditions which have prevailed in recent years and the market for anthracite would have been lost As it is the market is but a mere reminder of what it once was

Three of the four bandits implicated in the killing of three persons in the holding up of the First National bank at Lamar Colorado have been executed and search is being made for the fourth The record is a pretty good one but it will not be what it should be till the fourth now a fugitive from justice is made to pay the penalty suffered by the other three

In the event of the survival of direct male issue the will of Wade B M Jameson of Memphis Tennessee leaves the residue of his $50 000 estate after two bequests amounting to $21 000 are paid to Colonel Charles A Lindbergh and James Joseph Tunney his desire having been that his money go to two outstanding young Americans There's something substantial to this glory business after all

"THE TIME IS RIPE FOR BLOWING UP UNCLE SAM."

—Moscow order to American communists

Editorial Opinion

THUMB PRINTS ON CHECKS

Mark Twain scarcely could have realized what a powder train he was laying for the disturbance of future generations when back in 1894 he created his plot of "Pudd'nhead Wilson" He thus brought to wide public attention an obscure bit of knowledge that had been in possession of wise men of the East for many centuries but which did not come to practical use first in England and then in America until about the turn of the present century

Many persons of the nineties who were unfamiliar with physiological science believed Mark Twain discovered that the pattern of ridges and cleavages of the finger tips persist from childhood to very old age, that the arches and loops and whorls different in every individual are unchanging in character and give us a practically infallible means of identification in fact that the Missouri humorist discovered this physical peculiarity and wove it into his pleasing book The Tragedy of Pudd'nhead Wilson

But Mark Twain was merely a good reporter not a discoverer Finger prints had been used as a means of identification in the earliest days Babylonian records dating back as far as 4000 B C give dimensions of their use Later civilizations of the East made purposeful use of the prints in growing volume bringing the art down to modern times In fact Dr Purkinje eminent professor of physiology treated the subject not as a science as early as 1823 in a paper read to the University of Breslau a dozen years before Mr Clemens was born

But Mark Twain and his ability to seize upon the unusual and weave it into fiction probably brought the finger print method of identification to this country earlier than it would have come in its natural course At any rate employment of the finger print as a means of identification grew rapidly in America after the turn of the century and now various agencies—mostly police department—are assembling huge libraries of finger print signatures of some of our great actual and notorious citizens

But the finger print and its use is taking on character We see it in growing employment outside of police circles and for other than purposes of surveillance The smudge is being accepted in polite society with urgings offered for its adoption in the business world Christopher C Bennett identification expert in the war department declares that in the near future persons signing important documents will be required to attach their finger prints And he goes even further predicting that the day will come when even papers of so current use as bank checks will not be complete without finger or thumb prints

However one blow at the infallibility of these marks is to be found in the recent assertion by a University of Chicago biologist that the finger prints of identical twins are alike. — St Louis Globe Democrat

Twenty Years Ago

It was Thursday July 21

The Star reported the birth of a son the day before to Mr and Mrs Elmer Crain of west Columbia street

It was discovered that thousands of dollars worth of goods stolen from the Erie were being auctioned off down in Cincinnati

The Star reported that Marion had won from Lancaster seven to one the day before making four straight from that team

The city of Marion had 1 880 realty owners and they owned 1 040 parcels of land

The first load of new wheat arrived in the city It came from the farm of Michael Ullmer and consisted of 122 bushels of sixty pound grain

Miss Lodema Bagley and Mr John S McNamara the Star reported were married the day before at the home of the brides parents in Delaware The groom was a resident of Marion

Marion banks drew the line at automobile notes

Miss Edna Edith McCullan and Mr James A Clunk were married by Rev H V McCleery

William C Stanford was installed as eminent commander of Marion Commanders No 56 Knights Templar

Goulet pitched a splendid game for Marion and was given perfect support while the support given Moore and Hatter was ragged The result was that Marion defeated Portsmouth nine to one

The Word of God.

I know both how to be abased and I know how to abound everywhere and in all things I am instructed both to be full and to be hungry both to abound and to suffer need I can do all things through Christ which strengtheneth me—Phil 4 12 13

Prayer Some will hate Thee some will love Thee some will flatter some will slight Thee from man and look at me Thee trust in God and do the right

Value of Transfusions

BY ROYAL S COPELAND M D

Every other group of workers has its organization Why should we not have an organization for the protection of blood donors?

In New York City every year there are about 11 000 transfusions averaging about one pint of blood in each case About two years ago the blood givers organized the Cooperative Blood Donor Agency In connection with a New York hospital later the Blood Transfusion Betterment Association was formed The latter organization maintains offices where candidates are examined and selected and where monthly reexaminations are held

Women are not accepted This is because their veins are too small and as a rule they do not stand the loss of blood as readily as men Donors are chosen, not alone with reference to their physical health and the condition of the veins at the elbow but also for their appearance and good character

References to this form of treatment are found in the writings of ancient Egyptians and Romans It is known that in 1492 the Pope received blood from three donors

For many years blood transfusions have not been uncommon Since the World war however they have become an important factor in medical treatment

This story may not mean much to most of you But there are many cases where this procedure is essential to the life of the patient There are times when he must have supplied immediately a quantity of good rich blood

Of course you know the term blood transfusion means the transfer of blood from the circulation of one living person into that of another Transfusions are given to replace the blood lost by hemorrhage after an accident or operation or by hemorrhage in cases of internal ulcer

This treatment is indicated too in diseases like pernicious anemia and other conditions accompanying deterioration of the blood It many infections it may be helpful It is given in cases of illuminating gas poisoning

Transfusions are given sometimes to increase the resistance before a serious operation The fresh health giving blood promotes the prospect of recovery

Science has progressed in its study of this subject so that there attends the transfusion very little or no danger The physician makes sure before giving the treatment that he is using blood compatible with that of his patient He exercises care that too great a quantity of blood is not given By proper technique he prevents the passage of a bubble of air or a blood clot into the body of his patient

You can see that while it is unusual it is a method of treatment that has great importance in a desperate case

ANSWERS TO HEALTH QUERIES

H B Q—What causes cramps in the legs?

A—This may be due to poor circulation Build up the general health and your circulation will improve

* * *

R S Q—I have been troubled with tickling and formation of sputum in the mouth and throat this I am forced to spit out Have been examined and my trouble has been diagnosed as a sinus condition I am still expectorating What would you advise? My lungs have been X rayed

* * *

A—Correct the underlying catarrhal disturbance first of all Keep the nose and throat clear and keep up your general health For further particulars send a self addressed stamped envelope and repeat your question

* * *

MRS A B D Q—What causes a beating sound in the ears when lying down?

A—You may be troubled with high blood pressure It would be wise to consult your physician for an examination —Copyright 1930 Newspaper Feature Service Inc

* * *

MRS E C Q—What would cause constant sneezing every morning upon awakening I do not have a cold

A—How can I guess I seem to be in good health have plenty of rest wholesome food etc but can not put on weight

—Have your nose examined—there may be some obstruction causing an irritation Your doctor will advise you

J—You may be of a naturally slender wiry type However improving the health in general should also tend to add to the weight

* * *

Mrs M H Q—What do you advise for falling hair? My hair is white and curly but it is coming out

A—I would suggest shampooing regularly with a good pure soap and warm water and the use of a stimulating ointment

* * *

Dr Copeland will answer for readers of this paper, questions on medicinal hygiene and sanitation subjects that are of general interest. Where the subject of a letter is such that it can not be published in this column Dr Copeland will when the question is a proper one write you personally if a self addressed stamped envelope a enclosed Address all inquiries to Dr Royal S Copeland in care of this paper

Super Power.

BY ARCHIBALD HENDERSON

Since the days of the brilliant, but alienated, German philosopher Friedrich Nietzsche, the world has taken a new pitch in its trousers We all aspire to things hitherto believed to be beyond man Nietzsche accustomed us to the idea of something beyond man, by his vivid and inspiring image of the Uebermensch—or as Shaw translates it Superman The world is striving strenuously along all lines to surpass itself We are no longer satisfied with the ancient habits and accustomed Everything must be in terms of the transcendental—superman super golf super power super heterodyne!

The ideal of the new age is power dynamic energy kinetics There is believed on convincing evidence to be virtually limitless energy locked up in matter Is it a Utopian dream to prophesy the realization of the harnessing of the illimitable forces for the use of mankind? Shall we ever arrive at this fair haven of energy this paradise of power?

Sir Arthur Eddington declares that it is no longer the baseless fabric of a dream but the subject of serious practical investigation by the scientist There is little hope of getting out of a drop of water the power which lurks hidden there enough energy to furnish energy of 200 horsepower for a year But the physicists are learning how to raise matter to an excessively high temperature It is as yet very far from being high enough it will take a temperature almost unbelievably high to utilize the hidden sub atomic energy If we could heat matter to a temperature of 40 000 000 degrees we should be able to release and make available the energy of the stars That triumph once accomplished man could achieve almost anything the imagination could devise!

At the Cavendish laboratory of Cambridge university England Dr Kapitza has actually succeeded in producing momentary magnetic fields in which the concentration of energy corresponds to about 1 000 000 degrees Celsius The question is to maintain a steady flow of this energy and to magnify it forty times

It would be an incredibly dangerous thing for the world to release this energy without knowing also how to control it As Eddington amusingly observes If we should be able to raise the heat of matter to 40 000 000 degrees—well I don't really think sub atomic energy will come pouring out but just to be on the safe side I shall take care not to be too near the laboratory when the experiment is tried

Sub atomic energy may extend the life of the universe from millions to billions of years other possibilities of rejuvenation may extend it from billions to trillions But unless we can circumvent the second law of thermodynamics—which is as much as to say that unless we can make time move backward—the universe must ultimately reach a state of uniform changelessness —Copyright 1930 Inte national Feature Service Inc

In London.

BY O O McINTYRE.

London, July 21—I suppose every one who flies from Brussells to the Croyden field in England is heartened in those sinking and breathless moments of fear by Colonel Lindbergh's historic achievement All perhaps but the obese and Teutonic wording who slept blissfully in our plane from the take off until awakened at landing

London as usual was under murky skies upon our arrival, but even through the fog one could discern that the town, like Paris has gone modernistic The horse shoe circle of the Savoy has been done over in the modern as are innumerable shops along Piccadilly and the Strand Everywhere is a rash of modernism

Far more excellent writers well a little better anyway than the chronicler have paid tribute to The Cries of London and their shrill never loses an appeal The Strand seems to have an extra din just now for hundreds of the unemployed are resorting to catch penny schemes along the curbs

There was a shock in seeing one tall and grotesque creature with elaborate gestures mouthing and gulping handful after handful of colored tissue paper afterward passing the hat for my starving kiddies Yet an hour of cheerless unemployment debate in parliament is convincing Britain is treading water

Everybody seems to avoid talking directly about the economic crisis but ever where depressing poverty rears its hideous head Such as in front of one of the Trafalgar Square lions where a beggar resembling King George executes a sinister dance to a monkey organ tune rattling a spoon and fork with horrid specter like precision very slow

I caught sight of Henry Sell bobbing along Regent street very swank in his new Saville Row finery sporting the latest Locke hat and holding his umorella at the correct angle He was every inch the English toff but he didn't fool a newsie who popped out to cry Chicago Tribune sir!

London is a leisurely walking town Before the stores open in the morning streets and bridges fill with strollers The London merchant coming in from the suburbs gets a station or two away from his office and to window gaze and perhaps peep longingly at the wet grass green of the embankment

* * *

Hannen Swaffer the captious critic rushing by hesitated long enough to tell of an old lady in Ampstead Heath who was taken with pains on the appendicitis side The new district medico was called in mad examinations quieted fears and went his way That evening the old lady remarked to her daughter It was nice of the new vicar to call

But mumsie that wasn't the vicar that was the doctor

O said the old lady musing I thought he was a little familiar for a vicar

* * *

It may not matter to many of you of course but I miss my dog Due to the absurd six months quarantine law he was left behind in Belgium with a seven months old Cairn Scottie a new found friend who cheers Billy's ears and nips his paws when he tries to nap Billy merely looks at him quizzically but never protests Secretly I believe the Scottie has him bluffed We shall pick him up next week to resume our motor trip

* * *

The head bell hop at Claridges is a startling image of the movie actor Gary Cooper American flappers who catch sight of him stop gasp and look about for an array of movie cameras and a megaphoned director

* * *

The simpleton who took his Ingersoll to Tiffany's for repairs is a blood brother to the American who finds himself in the front row of a smart London theater wearing a tuxedo suit And as for the concertina or opera hat boys they are out like a light The unbrushable dicer is now the heroine In Harlem they hold the first three theater rows for whites—In London for Americans

* * *

The famous cross on St Pauls steeple has been regilded and glitters resplendently Twenty five thousand leaves of twenty four karat gold were used Nothing else would withstand the London atmosphere at Pauls Incidentally is beautiful and I always like to gaze at it among the first things I do while awander in London Yet it is really just so much magnificent and noble masonry—without sympathy It smacks entirely of pomp and prosperity and offers nothing of humility I like my cathedrals humble

* * *

The sun scudded out for a brief hour this afternoon and my wife and I mounted a lumbering bus top It was then she discovered I was wearing my dinner coat pants which have silk stripes down the side with blue serge coat It is so durn much this town a fellow can hardly see at all—Copyright 1930 McNaught Syndicate Inc

The Way of the World.

BY GROVE PATTERSON

Lamont secretary of commerce is not worried about business He tells us the overproduction of commodities on hand at the moment compared with the demand is not so great He says the surplus will rapidly disappear and more stable prices result Lamont is in position to know and other able business men agree with him The elder J P Morgan was right when he told his countrymen never to be afraid to make a bet on America Morgan knew something about America's resources Business men today know more about those resources than Morgan did Those who have some vision along with their thinking capacity know that Morgan was right then and Lamont is right now

* * *

The new tariff law contains 20 000 items of which 3 253 are taxable The senate held over 200 roll calls on the bill and made over 1 100 amendments The debate covers nearly 3 000 pages in the Congressional Record and the senate and house committee heard over 2 000 witnesses And all this waste to take care of a piece of work that really has no business ever to be introduced into congress Tariffs should be fixed by expert commission

Everybody knows that the first concern of an average congressman or senator is the perpetuation of himself in office Next he thinks of pleasing his voting friend back home and thirdly of giving service to the government Making a tariff bill is too delicate a business to turn over to men whose time is taken up more with politics than policies

* * *

Competition in business is a great thing for the rank and file of us who are not in business at all Most of us have neither profession nor business We merely have jobs—if we are lucky Cooperation is a pleasant word, and we hear a lot about it But it's when competition gets hot that we profit most Shell oil and Standard are huge rivals Their production is so great that gasoline is cheap and bids fair to be cheaper Competition has given us twenty hour trains between New York and Chicago, and marvelous motor cars that can go a mile and a half a minute Beware of soft soap cooperators who try to make you think we need more cooperation Long live competition, and may it stay hot.

LOOSE INFIELD PLAY BEATS SHOVELS

FOREST TOWELS IN SECOND VICTORY OF SEASON HERE, 9 TO 8

Ninth Inning Rally Falls One Run Short; Nuneviller Clouts Two Homers.

A three-run rally in the last of the ninth fell just one short of tying up the score and as a result the Marion Steam Shovels dropped their second decision of the year to the Forest Towels of Columbus, this time by a score of 9 to 8. Loose infield play that gave the Towels practically all of their runs, wiped away the benefit of some hard clouting on the Shovels' side. Nuneviller, Marion first sacker, continued his home run spree by driving two more out of the lot.

Five pitchers saw service in the game, three for the winners and two for the locals. None of the visiting moundsmen had a whole lot on the ball but seemed to have enough to fool the Shovel hitters when men were on the sacks. Richardson would have won his game had it not been for two bad errors by Ping Rizor in the sixth when the victors scored a quartet of runs on one lonely hit. Also the failure of Harry Pine to cover second base on an attempted bunt by Myers in the fifth was costly to the locals.

Late Rally

However if the game wasn't much baseballically speaking it was a pretty good battle to watch. The Shovels went unto the last of the ninth four runs behind and evidently due for a good walloping but Simmons, who had relieved Richardson on the mound in the sixth, drove Sells' first pitch far over the left field fence. Rowan walked and Pine scored him with a long triple to center. Nuneviller again came through, this time with a line single to left center that tallied Pine. At this stage Heinie Mead came on the hill and forced Price to fly weakly to Nelson, Rowan, who had three hard hits to his credit, filed to left to end the game.

Nuneviller accounted for three of the locals other four runs by smashing two circuit clouts, one with the bases empty and the other with one on. A triple by Wilgus and a single by Pine scored the other local run.

Quiet Until Fifth

The visitors after scoring a run in the second were quiet until the fifth when they drove in four scores. Rupp started it by beating out a bunt and Myers hunted to Richardson who had plenty of time to catch Rupp at second but nobody covered the sack so he was forced to throw out Myers at first. Nelson doubled, Callahan singled, and Koterba doubled to score three runners. Koterba crossed the plate when Shoup lost Mulby's high fly in the sun, the hit going for a triple. Four more scores in the sixth frame clinched the win.

Henson looped a single to right and was safe at second and Fenner was on first when Rizor messed up the latter's bingle. A wild pitch advanced both men and Rupp walked, filling the bases. Sells hit an easy chance to Rizor that possibly might have resulted in a double play but the ball went right on through to left field and all three runners scored. Sells tallied a moment later when Callahan flied to right field.

A double play started by Wilgus, new Marion second baseman, killed another Columbus batting rally in the eighth. The bases were filled with one out when Callahan hit to Wilgus, who stepped on second and threw to Nuneviller to complete the twin killing. Nelson, center fielder and Fenner, first sacker, were the fielding stars of the game.

Championships at Stake in Recreation League Games This Week

TRIBE HERO

ED. MORGAN

Eddie Morgan is the gentleman who out-Ruthed George Herman in the first game of the New York-Cleveland series yesterday at Cleveland by smashing a homer in the last of the ninth with one out and the tribe one run behind. His circuit clout was one of five during the game.

EPWORTH NO. 1 MEETS TOUGH OPPONENT IN EPWORTH SENIOR "9"

Shovel Club Tackles Erie Roundhouse in Feature Tilt Thursday Evening.

BY BOB ELLIOTT

Championship aspirations will be either realized or given up after this week's play is completed in the four recreation ball leagues. In only one league, the Second Church loop, do the leaders have fairly easy sailing while the other three pace-setters will either do or die as far as league championships are concerned. Headlining the games are the First church loop tilts, all of which are close and important to the league standings.

John Clark's Epworth No. 1 team will play the most crucial game of the season with the Epworth Seniors at Garfield. The No. 1 team took a terrible walloping from the Baptists last Tuesday while Roy Rice was having no trouble at all in plastering the Calvary nine with a 4 to 1 setback. Clark's outfit will need all they've got and perhaps a little more to nose out Rice but on the basis of past records No. 1 should be the favorite. There really shouldn't be any favorite but somebody has to win so we name Clark's team as our choice.

Shovel vs. Erie

The Shovel Club makes its greatest bid for the industrial league pennant when it tackles the Erie Roundhouse at Shovel No. 1. A win for the Roundhouse will make things look pretty rosy for the railroaders as far as the championship is concerned but we're picking the Club team to turn the trick that only one team has succeeded in doing so far this season. It'll be the case of a good pitcher against a medium or almost mediocre hurler and a good fielding and hitting team against good good fielding and perhaps harder hitting team.

The Kappas can make things look nice for the rest of the season by defeating the Shovel A. A. team at Lincoln Friday. They shouldn't have any trouble doing it but you never can tell. The fraternity boys look a bit too strong for the "Diggers" and should win by perhaps five scores. It's hardly likely if the "Kaps" do bent the Shovels, that they will ever be overtaken in the pennant chase. They have a two game lead now and another win Friday will enable them to keep that lead with only three more games to play.

Forest Lawn and Wesley hook up in tonight's feature at Lincoln. We're naming Wesley to win in the belief that Forest Lawn has one good surprise win left for this season and it's being saved for Lee Street. However if Mutt Kellogg's in good form all he'll need to win is about two or three runs and the east-enders ought to be able to get him that many off Johnny Cook or Tony Lashley. The game between St. Paul and Christians at the Shovel tonight has been called off.

EDDIE MORGAN'S HOMER IN LAST INNING BEATS YANKEES, 9 TO 8

BY HUGH S. FULLERTON, JR.
Associated Press Sports Writer

Eddie Morgan of Cleveland won a game by a home run in the ninth yesterday. He slammed his 18th circuit blow of the season with one out and one on base to defeat the New York Yankees, 9 to 8, and to undo the work of those more famous home run hitters, Babe Ruth and Lou Gehrig. Ruth poled his 34th homer off Milburn Shoffner, a perennial victim of the Ruthian drives, in the fourth inning. Gehrig hit his 20th a moment later and another in the next inning. Bib Falk gave Morgan something of a race for the place in the spotlight, by hitting for the circuit when he appeared as a pinch hitter in the sixth.

Jimmy Foxx also had the satisfaction of winning a ball game by the home run route. Foxx connected with Guy Cantrell's delivery for No. 26 with one mate on base in the eighth and enabled the Philadelphia Athletics to defeat the Detroit Tigers, 5 to 3. Other results of this homer were to give Lefty Grove his 13th victory of the year, to hand Cantrell his first American league defeat the day after the Tigers acquired him from Toronto, and to put the Athletics four games ahead of the Washington Senators, defeated at St. Louis.

Fall Short

The Senators produced a pinch homer by Joe Judge in the ninth inning followed by a similar clout by Art Shires, who supplanted Judge at first base, but they only produced three runs, not enough to overcome the St. Louis lead and the Browns won, 8 to 6.

To complete the American league's cycle, Bob Reeves of Boston hit a homer with two on base in his one time at bat in the Red Sox second game but it only served to prolong the agony. Chicago's White Sox pulled out a 5 to 4 victory in the ninth inning of the second game after pounding out a 16 to 4 decision in the opener as Ted Lyons scored his 14th victory of the season.

The National league produced no last minute homers, but there were plenty of them and even more plentiful supply of hits as Brooklyn and Chicago suffered sharp letdowns after the finish of their crucial series. The St. Louis Cardinals handed the league leaders a 15 to 6 trouncing, driving Bill Clark from the mound with seven runs in the second inning. The Cards made five errors but atoned for them by pounding out 17 hits, two of them homers.

A's Pick Up Another Game on Faltering Solons, Who Lose, 8-6.

Chicago went down with hardly a murmur under the assaults of the New York Giants, who likewise made 17 blows and won a 13 to 5 count. The Cubs led only in the first two innings, when they scored four of their runs. Hack Wilson hit his 26th home run of the year as the dual Cub feature of the game. The result of these two games put Chicago one point closer to Brooklyn and left the teams in their virtual tie for first place.

Boston and Cincinnati, battling for sixth place, failed to reach a decision in their attempts to break the current tie. The Reds won the first game 8 to 5 with a home run barrage behind the effective pitching of Red Lucas but Boston reversed the result in the second, pounding three pitchers for a 13 to 1 triumph as Tom Zachary held the Reds.

CLOSE CALL

Richwood Scores 2 in Ninth To Beat Sunbury, 1 to 3.

Carl Allgower's Richwood baseball team scored twice in the last of the ninth yesterday afternoon to defeat Sunbury, 4 to 3 on the Richwood diamond. The game stood at 2 to 1 in favor of the home team at the start of the last inning but Sunbury got to Mougey for two scores in their half. However Richwood came back to score twice and win.

The score by innings:

Sunbury ..... 010 000 002—3 6 0
Richwood .... 000 002 002—4 10 1
Perfect, Lechler and Johns; Mougey and Johnson.

* * *

Harpster defeated Essex on the latter's diamond yesterday by a score of 8 to 6. A three run rally by the home team in the ninth fell two runs short of tying the score.

The score by innings:

Harpster .... 101 000 141—8 25 2
Essex ..... 001 020 003—6 13 5
Swinehart and Bentley; Converse and Mulligan.

MARION NATIONALS IN COLUMBUS FOR PLAY IN LEGION TOURNEY

Drawings Scheduled for Fort Hayes Barracks; First Round Starts Today.

Marion Nationals, American Legion baseball champions of Marion county and the sixth district, start their quest for the state championship today in the tournament at Columbus. Drawings were to be made at 10 a. m. today with the first round scheduled to start about noon on Ohio State University diamonds.

Ten districts are sending their champions to the state capital today in attempt to capture the coveted title of champions and the right to represent Ohio in the regional tournament next month in Michigan. The local team is given a good chance of reaching the late rounds of the tourney and perhaps of emerging with the state title although competition this year is the strongest in the history of the Legion leagues.

The Marion team left today for the scene of the tourney and went directly to Fort Hayes barracks where they will stay while the tournament is being played. In addition to the regular lineup that swept its way through the district tournament two weeks ago Manager Walter E. Hone is carrying plenty of substitutes. Castner is expected to start the first game on the mound with Lindsey and Freddy Vestal in reserve use.

All first round games will be played today with the second round tilts scheduled for tomorrow and the semi-finals on Wednesday. If at all possible the final game for the state championship on Thursday will be played at Neil Park, the home of the Columbus Senators. Many of the teams who are competing this year are on familiar ground as they battled for the state championship last season. However Portsmouth, last year's title-holder is not in the field, being eliminated by Hillsboro in the district finals.

OSGOOD TENNIS TEAM DRIVES WAY TO WIN OVER STEAM SHOVEL

Capture Four Out of Five Singles and Sweep Both Double Matches.

The Osgood company tennis team scored a smashing victory over the Steam Shovel courtmen Saturday afternoon on the Shovel courts by winning four out of five singles and capturing both of the doubles matches. The match was the first of the inter-company matches of the year although more have been indefinitely scheduled.

In the singles Jones of the Osgood defeated White, 7-5, 7-5 in one of the hardest fought matches of the afternoon. Wolfinger evened the score in the second singles by defeating Long, 8-6, 6-4. However, the next three singles went to Osgood when Bush defeated Jacoby, 6-1, 6-2, Gilmore won from Tuttle, 6-2, 6-3, and Annen defeated Kerr, 6-0, 6-3, 6-4, in the only three set match of the afternoon's games.

The doubles both went to Osgood in straight sets. Jones and Bush had little trouble in defeating White and Norris, 6-4, 6-4 and their victory was almost duplicated by Long and Gilmore who sank Wolfinger and Kerr, 6-1, 6-3.

* * *

Plans for the Marion county tennis championship that are to be held some time in August on the Shovel courts are being formulated and definite plans may be made known in the near future. Entry blanks will be published in this paper with full details of the tourney when plans are completed.

There will probably be three divisions of play, the men's singles, women's singles and doubles. There may also be a class for boys below 16 and a mixed doubles division

Canzoneri And Bass To Scrap

By The Associated Press

NEW YORK, July 21—Benny Bass of Philadelphia and Tony Canzoneri of New York occupy the place of honor in the national boxing this week. They clash in a ten-round bout at Philadelphia tonight.

Bass and Canzoneri put on one of the most savage 15-round battles Madison Square Garden has ever seen a little more than two years ago. Bass at that time was recognized as featherweight champion by the National Boxing Association while Canzoneri was recognized by the New York State Athletic Commission. Tony won the decision after 15 rounds of the bitterest kind of fighting. Since then Bass has won a title and Canzoneri has lost one. Bass holds the junior welterweight title in states where that division is recognized. Canzoneri has been campaigning as a lightweight since he lost his featherweight crown to Andre Routis who subsequently passed it on to Bat Battalino.

500 IN MEETING

By The Associated Press

TOLEDO, O., July 21—More than 500 of the fastest trotters and pacers of the country will be in action in Toledo's second week of grand circuit harness racing opening at the Fort Miami track tonight.

YESTERDAY'S STARS

Lefty Grove, Athletics — Allowed eight scattered hits, struck out six and beat Tigers, 5-3.

Eddie Morgan, Indians — Eighteenth homer with one on in ninth beat Yanks, 9-8.

Wally Berger, Braves — Clouted Reds' pitchers for single, two triples and 26th homer.

Clarence Mitchell, Giants — Went in as relief pitcher in fourth, held Cubs to three hits and no runs in last six innings as Giants won easily.

Frankie Frisch, Cardinals — Accounted for seven runs with homer, double and sacrifice against Robins.

HOPES FOR REGAINING TENNIS TROPHY AGAIN REST WITH BIG BILL

Tilden and Lott To Handle Singles in Challenge Round This Week-End.

By The Associated Press

AUTEUIL, France, July 21—America's Davis Cup tennis team once more has gained the Davis Cup challenge round and will meet France for the historic trophy on Friday, Saturday and Sunday.

The youngsters from across the Atlantic cleared the last hurdle when they eliminated Italy in the interzonals and with Big Bill Tilden and more making a dramatic entrance upon the scene, look forward confidently to the challenge round.

The outlook at present is for Tilden and George Lott to handle the singles assignments against Henri Cochet and Jean Borotra with John Van Ryn and Wilmer Allison pairing in doubles against a French team that may be composed of Jacques Brugnon and Christian Boussus. The French have indicated they have little hope of winning the doubles and prefer to save Cochet and Borotra for singles duty alone.

The American team completed its conquest of Italy yesterday, dividing the last two singles matches to make the final score four to one. Lott swept aside Georgio De Stefani in straight sets, 6-3, 6-1, 6-3, but Allison was defeated by Baron Humbert de Morpurgo, 7-5, 6-2, 5-7, 6-4 in a series, however, had been clinched on Saturday when Allison and Van Ryn defeated Morpurgo and Placido Galoffini in doubles. America also won the first two singles matches, Allison beating De Stefani in five sets and Lott conquering Morpurgo in four.

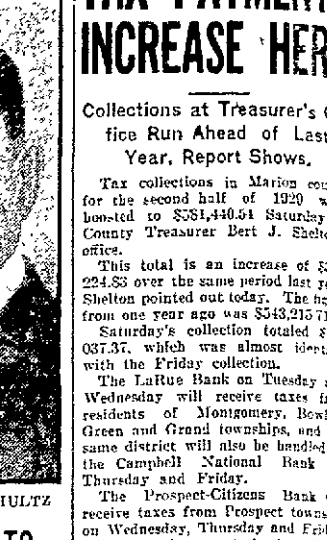
LEGAL NOTICE
Sealed bids will be received by the Trustees of Richland Township, Marion County, Ohio, at their office at the Township House until the 4th day of August, 1930, at 1 o'clock P. M., for furnishing labor and material necessary for the construction or reconstruction and improvement of the Yeager Road No. 164, a Township Road in Richland Township, Marion County, Ohio, according to the estimates and specifications for such improvement, copies of which are on file with the Trustees at the office of the Township Clerk and at his residence in Richland Township.
Each bid must contain the full name of every person or company interested in same and be accompanied by a certified check to the satisfaction of the Trustees in the sum of Two Hundred Dollars ($200.00) on some solvent bank as a guarantee that if the bid is accepted, a contract will be entered into and its performance secured to the satisfaction of the Board of Trustees of Richland Township, Marion County, Ohio.
Each bid shall be enclosed in an envelope with the name of the bidders thereon and sealed before delivery. No bid will be received that exceeds the estimated cost of said improvement and the Trustees reserves the right to reject any or all bids.
A. M. FETTER,
GEO. J. MILLER,
GEO. ANTHELM,
Trustees of Richland Township, Marion County, Ohio
Attest: W. G. Hans,
Township Clerk
July 21, 1930

TO SPEAK HERE



REV. J. RAYMOND SCHULTZ

NOTED SPEAKER TO ADDRESS AUDIENCE

Rev. J. Raymond Schutz To Talk on "Civilization vs. Paganism," Here.

Rev. J. Raymond Schultz, head of the social science department of Manchester College, governor of the Indiana district of Kiwanis and pastor of First Brethren church at North Manchester, Ind., will speak on the Chautauqua program Friday, at 9 p. m.

"Civilization vs Paganism" will be the topic of his lecture. Rev. Schultz delivers more than 265 lectures every year, an average of more than one a day. He is one of the foremost students of economics and in pursuit of his studies has recently made four trips to Europe.

The ability to speak five languages has enabled Rev. Schultz to interpret European conditions in a unique, attractive and interesting manner.

Rev. Schultz's lecture will follow a prelude at 8 p. m. by the Bessie Larcher Company of musicians.

TAX PAYMENTS INCREASE HERE

Collections at Treasurer's Office Run Ahead of Last Year, Report Shows.

Tax collections in Marion county for the second half of 1929 were boosted to $581,440.54 Saturday at County Treasurer Bert J. Shelton's office.

This total is an increase of $38,224.83 over the same period last year, Shelton pointed out today. The figure from one year ago was $543,215.71.

Saturday's collection totaled $70,037.37, which was almost identical with the Friday collection.

The LaRue Bank on Tuesday and Wednesday will receive taxes from residents of Montgomery, Bowling Green and Grand townships, and the same district will also be handled by the Campbell National Bank on Thursday and Friday.

The Prospect-Citizens Bank will receive taxes from Prospect township on Wednesday, Thursday and Friday, and three other county banks will act as collection agents on Thursday and Friday. Morral Bank will handle Salt Rock township, Waldo Bank will receive tax money from Waldo township, and the Peoples Bank, Green Camp township.

Shelton's office will be open Friday from 7 to 9 p. m. and on Saturday from 1 to 3 p. m. for the benefit of taxpayers who are unable to reach the office during the regular business hours.

TO HOLD PICNIC

U. C. T. Plans Outing at Garfield Park Aug. 23.

Plans were made for a picnic for members, their families and friends Aug. 23 at Garfield park, at the meeting of the United Commercial Travelers Saturday night. Games will feature the afternoon and evening entertainment and a picnic supper will be served. Awards will be presented winners in the games and contests.

Arrangements for the outing are in charge of a committee of which Ed. Glimpse is chairman. Others on the committee are C. A. Moore, E. L. Glatz, E. T. Winterute, E. H. Hughes and Robert Williams. The next meeting will be Aug. 16.

Pastor Talks on Life of Moses at Union Services

Rev. C. E. Groves of Central Chrstian Church Preaches at First Presbyterian as Churches Unite; Young People's Groups Have Program.

Rev. C. E. Groves, pastor of Central Christian church, and guest pastor at First Presbyterian church last night for the union church services, preached on "The Two Ways," taken from Heb. 11:27, "Moses refused to be called the Son of Pharoh's daughter, choosing rather to share ill treatment with the people of God."

The terrific heat of yesterday influenced the number of people attending the services, although those in charge were well pleased with the attendance they said today.

Music Program

The services opened with an organ prelude and a hymn by the congregation. Leonard Young sang a solo "Flee As a Bird," Dana, followed by an anthem, the chorus from "Tannhauser," by Wagner. Mrs. Stewart Vermillion sang "Abide With Me," Shelley.

The sermon by Rev. Groves was in part as follows:

"Moses was confronted with the necessity of making a choice between two roads of life,—the way of the world and the way of God. This great decision involved three things.

"The consecration of himself and resources to God. All that he was and had was laid on the altar and used for God's chosen people.

"He chose to be guided by the deep experiences of his own soul. This faith in the divine sustained him in his difficult task.

"He deliberately chose to recall the road of sacrifice rather than enjoy the pleasures of sin for a season.

"The road that lead to the Promised Land was the road of consecration, faith and sacrifice."

Young People Meet

The Young People's societies of the various churches met at 7 p. m. with the Central Christian church young people in charge of the meeting, with Francis Fairchild leading the services.

Miss Pauline Rubins read the scripture lesson, followed by prayer by Francis Fairchild. Keith Malone gave a talk, "My Favorite Book." Talks were given by Miss Virgie Foreman and Miss Virginia Hartsell, after which Miss Esther Johnson and Miss Alma Rubins sang "Love Divine." "My Favorite Book" was also the subject taken by Miss Mary Louise Hartsell for her talk. Miss Helen Woodruff talked on "Do You Consider the Reading of Good Books Essential and Why?" "How Do We Know What To Read" was the subject of a talk by Miss Verna Babcock.

Next Sunday night the union meetings will be set aside for the Chautauqua program at Garfield park.

NOTICE OF APPOINTMENT
Estate of Hester A. Eversole, Deceased.
Notice is hereby given that Elizabeth Dowell and Mildred Sells have been appointed and qualified as administratrices of the Estate of Hester A. Eversole, late of Marion County, deceased.
Dated at Marion, Ohio, this 10th day of July, A. D. 1930.
OSCAR GAST,
Probate Judge, Marion County, Ohio.
Case No. 11030.

STORE LOOTED

Burglars are reported to have entered a Kroger store at Pearl and Columbia streets sometime over the week-end and stolen a small quantity of cigars, tobacco and candy. Entrance was gained through a side door in the building.

When you believe a huge majority is going to vote your way, that's about the only excuse for not going to the polls.

JOHN KERRIGAN, 53, DIES IN MASSILLON

Former Marion Resident Succumbs After Heart Attack Sunday.

John Kerrigan, 53, former resident of Marion and a brother of Thomas H. Kerrigan of 295 West Church street, died suddenly at his home in Massillon Sunday at 5 a. m. Death came after a heart attack.

A number of years ago he resided in Marion, being employed with the Erie railroad for two years. Four sisters and five brothers survive. He was not married.

Funeral arrangements had not been completed today. He will be buried in St. Joseph's cemetery at Massillon.

STORE LOOTED

Burglars are reported to have entered a Kroger store at Pearl and Columbia streets sometime over the week-end and stolen a small quantity of cigars, tobacco and candy. Entrance was gained through a side door in the building.

When you believe a huge majority is going to vote your way, that's about the only excuse for not going to the polls.

Pastor Talks on Life of Moses at Union Services

Rev. G E Groves of Central Christian Church Preaches at First Presbyterian as Churches Unite, Young People's Groups Have Program.

Rev G E Groves pastor of Central Christian church and guest pastor at First Presbyterian church last night for the union church services preached on "The Two Ways" taken from Heb 11 27 Moses refused to be called the Son of Pharaohs daughter choosing rather to share ill treatment with the people of God

The terrific heat of yesterday influenced the number of people attending the services although those in charge were well pleased with the attendance they said today

Music Program

The services opened with an organ prelude and a hymn by the congregation Leonard Young sang a solo The As a Hind Drank full with an anthem the chorus from Tannhauser by Wagner Miss Scott Vermillion sang Abide With Me Shelley

The sermon by Rev Groves was in part as follows

Moses was confronted with the necessity of making a choice between two roads of life—the way of the world and the way of God That great decision involved three things

The consecration of himself as resource to God All that he was and had was laid on the altar and used for Gods chosen people

He chose to be guided by the leadership of his own soul His faith in the divine sustained him in difficult task

He deliberately chose to recall the road of sacrifice rather than enjoy the pleasures of sin for a season

The road that lead to the Promised Land was the road of consecration faith and sacrifice

Young People Meet

The Youth Peoples societies of the various churches met at 7 p m with the Central Christian church young people in charge of the meeting with Francis Fairchild leading the service

Miss Pauline Rubins read the scripture lesson, followed by prayer by Frances Fairchild Keith Malone gave a talk My Favorite Book Talks were given by Miss Virgie Foreman and Miss Virginia Hartsell after which Miss Esther Johnson and Miss Alma Robins sang Love Divine My Favorite Book was also the subject taken by Miss Mary Louise Hartsell for her talk Miss Helen Woodruff talked on Do You Consider the Reading of Good Books Essential and Why How Do We Know What to Read was the subject of a talk by Miss Verna Babcock

Next Sunday night the union meetings will be set aside for the Chautauqua program at Garfield park

JOHN KERRIGAN, 53, DIES IN MASSILLON

Former Marion Resident Succumbs After Heart Attack Sunday.

John Kerrigan 53 former resident of Marion and a brother of Thomas H Kerrigan of 295 West Church street died suddenly at his home in Massillon Sunday at 5 a m Death came after a heart attack

AUTO DRIVER HELD FOR TRAIN WRECK

Companion, Reported To Be Ada Professor Detained as Material Witness

By The Associated Press

ELIZABETH, N J July 21—A M Allcroft whose skilled auto mobile caused the derailment Saturday night of a Pennsylvania railroad train resulting in the death of one person and injury to 68 today was charged with manslaughter and held in $1 500 bail He pleaded not guilty His companions James W Allcroft and William J McNair were held in $500 bail as material witnesses

Previous to his arraignment on the manslaughter charge Allcroft pleaded guilty in police court to a charge of leaving the scene of an accident and was fined $50

Prosecutor Duvil said he was considering charges of negligence as to the railroad for failure properly to guard the street crossing where the accident occurred

James Allcroft is reported to be a member of the faculty of Ohio Northern university

The locomotive and tender were overturned and two coaches hurtled down a 40 foot embankment at a trestle after the train struck the automobile a short distance east of the South Elizabeth station of the Pennsylvania railroad

In his cell Arthur Allcroft explained that his car had been abandoned on the tracks in the path of the on rushing train He had driven down a street which turns sharply alongside the tracks

capture Quebec he strutted up and down fuming so much that his superior was compelled to dismiss him But he did climb the heights of Abraham and take Quebec dying of wounds on the battlefield There is a cure for exuberance none for barrenness That should be remembered by critics of youthful foolishness

* * *

ASSURANCES of protection given to Jews in Rumania by the recently returned and presumably reformed King Carol amount to little

At Bukowine 7000 armed farmers announce their intention to banish with Dr Shmalkes and authorities They turn against the government declaring that it tried to protect the Jews

If those farmers would read the history of Portugal and contrast it with the histories of England and of Holland they would know what happens to nations that persecute and drive out Jews and to nations that treat them justly they would know what will probably happen to Rumania Wait until Russia comes and it will fall into the hands of an aggressive conqueror

Employment Demand Made on Ohio Mayor

By The Associated Press

ZANESVILLE O July 21 — A delegation of 200 unemployed gathered at city hall today and demanded employment of Mayor W B Webster and Service Director Jame McKinney

The delegation asked that the mayor divide the city working week into two sections of three days each to give employment to persons other than those now on the payroll

FOREST FAMILY IN AUTO CRASH HERE

Children of Mrs Plen Liles Injured When Cars Collide on Center Street.

Mrs Plen Liles and three children of Forest O figured in an automobile accident on East Center street Saturday about 6 p m at the Low Price Filling station

Mrs Liles driving a small sedan cut on Center street turned to the left to enter the filling station and moved directly in front of a machine approaching from the east The impact knocked the right rear wheel off the Liles car and broke the spokes in the left rear wheel The sedan was thrown on its side

Gertrude Liles 13 sustained the most severe wounds Thirty stitches were required to close a wound on her right arm She would have escaped injury had she not held up her arm to shield her 11 month old brother Harry Lee who she was holding The baby was not injured except for a slight cut on his forehead Elmer 16, was slightly bruised Mrs Liles was not hurt

The children were taken to the offices of a local physician for treatment The machine was repaired and they returned home Saturday night The name of the driver of the other machine was not learned

Harold Cobb Transport Student Struck by Metal Standard

Harold Cobb Marion transport student of the Curtiss Wright Flying Service was in Grant hospital in Columbus today suffering from a rib fracture sustained yesterday when another student crashed into a metal standard in front of a hangar at Columbus throwing it against Cobb according to Associated Press

This Is Horse On City Police

What to do with a horse arrested on a charge of loitering by one of the local police force and brought into police headquarters is a matter of much discussion around the city hall today Of course it is not often that such a 'pinch' is made but when an outraging patrolman does make one and there is no place in which to confine the animal it is just too bad

Local police are facing such a situation today A city patrolman determined to uphold the city statutes, late last night arrested a horse on a charge of loitering The owner of the horse is not known To keep hours is in the proper manner requires a lot of feed and that is just what the police haven't got —at least not for horses

No decision had been reached late this morning as to what disposition would be made of the animal

Woman Flier and Explorer Writes Story of Adventure Romance for Star Readers

MARY DAHLBERG, author of the thrilling romance Danger which starts in The Star Friday July 25 not only writes of adventures, she experiences them herself

One of the first women fliers in America, she has piloted planes more than 1 000 hours Hunting big game visiting remote dangerous sections of the world and exploring Canadian wilderness are some of her pastimes.

Born and reared on a Texas ranch she took to the saddle as a child riding the ranch with cowboys Fifteen years ago she learned to fly in a second hand plane held together by copious bits wire lashings

Before Mrs Dahlberg was 20 years old she had crossed the Andes on mule back Hunting expeditions took her to Africa India and China piloting a canoe 700 miles through crudely mapped tributaries of Hudson Bay gave her many a thrill

Mrs Dahlberg lives in Chicago and travels about the country in a large amphibian plane When Danger was published in book form she entertained New York critics at tea in her plane 9 000 feet above Manhattan

Danger is the heroine of her story Like the author Danger is a child of the Texas plains Daring and resourceful she rides spirited thoroughbreds and pioneering airplanes to romance and intriguing exploits

The first chapter will appear in The Star Friday July 25
